

# Negative Racism

## Definition:

Negative Racism: Racism is the theory that there are different "races". Racists think some "races" are more valuable than others. Negative Racism is the opposite of Positive Racism. Negative Racism is when you offend people with other nationalities. The people with other nationalities fight against the racists.

## Example:

In the last year was a Black man his name was George Floyd the man was a victim of a police violence.

R.I.P Georg Floyd † 25.05.2020

# Positive

# Racism

Black Live  
Matter

Definition:

Racism: Racism is the theory that there are different "races". Racists think some "races" are more valuable than others.

• Positive Racism: Positive racism means when you actually only like someone because of a different country, skin color or language and are extremely nice to that person because you think you must be.

• e.g. Person A: are you a Turk. Person B: yes why?

Person A: I like you guys because turks make the best kebab.

Definition

# Everyday Racism

Racism is the theory that there are different (races) and the only one of them is valuable.

Everyday racism can rarely be proven. Sometimes is it the tone, the look, the facial expressions, gestures that make you understand that you are not wanted.

Bsp:

For example if you are the only person that the airport to be greeted by the border police man not with a friendly smile but with a condescending and gruff

# Institutional racism

Racism: Racism is the theory that there are different "races".

Racist think some races: We more valuable than others.

Bsp:

The teacher look the student suspicious

People experience institutional racism through exclusion, disadvantage or degradation in socially relevant institutions such as: in political participation (right to vote, lack of representation in political institutions) in the education system. On the job market.
